Experience

Frontend Developer

Springboard Philippines (Remote)

January 2025 – August 2026

- Develop and maintain responsive, high-performance web and mobile applications using ReactJS, React Native, Next.js, TypeScript, and React Query, ensuring seamless integration with backend APIs.
- Partner with UI/UX designers to transform Figma prototypes into scalable, reusable, and pixel-perfect React components..
- Optimize existing projects for speed, accessibility, and user experience, leading to smoother product performance.
- Conduct code reviews, testing, and debugging to uphold best practices, improve maintainability, and ensure robust feature delivery.
- Leverage AI-driven development tools and workflows to accelerate feature implementation and enhance development efficiency.

Junior Web Developer Intern

Symph (Remote)

August 2024 – December 2024

- Collaborate with senior developers to design and implement dynamic features using Next.js, Nest.js, TypeScript, Tailwind CSS, and PostgreSQL, enhancing overall application functionality.
- Optimize and maintain existing projects to improve performance and user experience, ensuring seamless operation.
- Participate in a structured apprenticeship program, gaining hands-on experience and guidance in advanced web development practices.
- Uphold high code quality standards through thorough testing and code reviews, contributing to a maintainable and efficient codebase.
- Integrate AI-driven development techniques to streamline workflows and enhance feature implementation.

Junior Frontend Web Developer Intern

Codebilty (Remote)

April 2024 – August 2024

- Engineered responsive frontend features using Next.js, React.js, TypeScript, and Tailwind CSS, resulting in enhanced user engagement and functionality.
- Proactively maintained and optimized existing projects to improve performance and user experience, ensuring smooth operation.
- Actively participated in internal hackathons, collaborating with team members to innovate and prototype new ideas.

IT Consultant

RTI International

July 2022 – September 2022

- Collaborated with the Vaccination Cluster Head and Vaccination Site Medical Officer to support COVID-19 response efforts and facilitate vaccination rollout.
- Accurately encoded profiles of vaccine recipients during both registration and post-vaccination phases, ensuring comprehensive data management.
- Developed and maintained a master list of vaccine recipients to streamline tracking and reporting

processes.

- Compiled and delivered detailed reports to ReachHealth and the City Health Office on a daily, weekly, and monthly basis, ensuring transparency and accountability.
- Provided on-site technical support to vaccination staff, enhancing operational efficiency and addressing any challenges.

Data Manager

Department of Health – Zamboanga City

December 2021 – March 2022

- Oversaw the management of all vaccination patient data, ensuring accuracy and confidentiality.
- Accurately encoded profiles of vaccine recipients during the registration process to facilitate efficient tracking.
- Recorded post-vaccination profiles to maintain comprehensive and up-to-date patient information.
- Delivered on-site technical support at the vaccination site, addressing issues promptly to enhance operational efficiency.

Contact Tracer

City Government of Zamboanga – Zamboanga City

August 2020 – October 2020

- Led efforts to locate the residences of COVID-19 positive patients, ensuring timely follow-up and support.
- Retrieved and mapped geolocation data for patient residences to enhance contact tracing and public health responses.

PIDS Staffer

Universidad de Zamboanga – Zamboanga City

December 2019 – February 2020

- Managed inventory for books and apparel, ensuring accurate stock levels and efficient replenishment.
- Performed cashier duties, including processing transactions and providing excellent customer service.
- Generated daily sales reports to analyze performance and inform inventory decisions.

Skills & Interests

Technical:

- Frameworks & Libraries: React.js, Next.js, Nest.js, Typescript, TailwindCSS, Shadcn UI
- Database tools: PostgreSQL, MySQL, MongoDB, Prisma
- Tools & Platforms: Vercel, Git

Language:

- English
- Tagalog
- Bisaya
- Chavacano

Interests:

- Web Development
- AI driven development

Education

Bachelor of Science in Computer Science Major in Software Technology

Western Mindanao State University – Zamboanga City, PH
March 2019
